<td>November 7-11, 1994</td>
<td>Modern Developments in Cancer Therapeutics</td>
<td>Yung-chi Cheng, New Haven, CT; Cheng-Wen Wu, Taipei, Taiwan</td>
<td>Academia Sinica, Taipei, Taiwan, R.O.C.</td>
</tr>
<tr>
<td>November 29-December 4, 1994</td>
<td>Translational Research in Cancer: New Opportunities for Progress</td>
<td>Carlo M. Croce, Philadelphia, PA</td>
<td>Grove Park Inn, Asheville, NC</td>
</tr>
<tr>
<td>December 8-13, 1994</td>
<td>Basic and Clinical Aspects of Prostate Cancer</td>
<td>Donald S. Coffey, Baltimore, MD</td>
<td>Marriott's Rancho Las Palmas Resort, Rancho Mirage (Palm Springs), CA</td>
</tr>
<tr>
<td>January 14-19, 1995</td>
<td>Mechanism of Action of Retinoids, Vitamin D, and Steroid Hormones</td>
<td>Michael B. Sporn, Bethesda, MD; Ronald M. Evans, San Diego, CA; David Mangelsdorf, Dallas, TX</td>
<td>Whistler Resort and Conference Centre, Whistler, B.C., Canada</td>
</tr>
<tr>
<td>February 13-18, 1995</td>
<td>Molecular Biology of Cancer: Implications for Prevention and Therapy</td>
<td>Lee W. Wattenberg, Minneapolis, MN; Masaaki Terada, Tokyo, Japan</td>
<td>Maui Marriott Hotel, Maui, HI</td>
</tr>
<tr>
<td>March 19-22, 1995</td>
<td>86th Annual Meeting</td>
<td>Donald S. Coffey, Baltimore, MD</td>
<td>Metro Toronto Convention Centre, Toronto, Ontario, Canada</td>
</tr>
<tr>
<td>April 1-6, 1995</td>
<td>Signal Transduction of Normal and Tumor Cells</td>
<td>Anthony J. Pawson, Toronto, Ontario, Canada</td>
<td>Banff Centre, Banff, Alberta, Canada</td>
</tr>
<tr>
<td>October 14-18, 1995</td>
<td>Cytokines and Cytokine Receptors</td>
<td>Steven Gillis, Seattle, WA</td>
<td>The Sagamore, Bolton Landing (Lake George), NY</td>
</tr>
<tr>
<td>November 5-9, 1995</td>
<td>Cancer: The Interface Between Basic and Applied Research</td>
<td>Bert Vogelstein, Baltimore, MD; Stephen H. Friend, Charlestown, MA; John D. Minna, Dallas, TX</td>
<td>Stouffer Harborside Hotel, Baltimore, MD</td>
</tr>
<tr>
<td>December 2-6, 1995</td>
<td>The Molecular Basis of Gene Transcription</td>
<td>Tom Curran, Nutley, NJ</td>
<td>Hotel Del Coronado, Coronado (San Diego), CA</td>

Phone: 301/846-1302  Fax: 301/696-1549
Notice to Members of the American Association for Cancer Research
Officers for 1994–1995
President: Edward Bresnick, University of Massachusetts Medical Center, Worcester, MA 01655-0126
President Elect: Joseph R. Bertino, Memorial Sloan-Kettering Cancer Center, New York, NY 10021
Treasurer: Bayard D. Clarkson, Memorial Sloan-Kettering Cancer Center, New York, NY 10021
Executive Director: Margaret Foti, AACR, Public Ledger Building, Suite 816, Philadelphia, PA 19106-3483

Annual Dues
The annual dues of active members of the American Association for Cancer Research are $150.00, $55.00 of which may be applied to a subscription to Cell Growth & Differentiation. Corresponding members of the Association will be charged an appropriate fee to offset second-class postage costs. Payment of dues and changes of address of members of the Association should be sent promptly to Margaret Foti, Executive Director, American Association for Cancer Research, Public Ledger Building, Suite 816, 150 South Independence Mall West, Philadelphia, PA 19106-3483; Telephone: (215) 440-9300; FAX: (215) 440-9313.

Submission of Manuscripts
Cell Growth & Differentiation publishes significant, original research on the molecular biology of cancer. The journal's scope encompasses a broad range of in vitro and in vivo studies pertaining to normal and abnormal cellular processes. Topics include oncogenes and tumor suppressor genes, gene expression and regulation, transcription factors, growth factors and their receptors, molecular mechanisms of tumor progression, signal transduction, cell cycle, differentiation, and development. All submissions undergo peer review. Papers may be sent directly to an appropriate member of the Editorial Board for review. See Instructions for Authors (page ii of this issue) for complete mailing addresses of Editorial Board members.

Back Issues and Single Copy Sales of the Journal
Copies of back stock of the journal may be ordered from Cell Growth & Differentiation, P.O. Box 3000, Denville, NJ 07834 [Telephone: (800) 875-2997; FAX: (201) 627-5872]. As long as supplies permit, single copies will be sold by this company at $12.50 per copy. Orders outside the U.S. add $1.50/copy to offset postage costs.

Advertisements
Advertisement insertion orders and copy must be received 60 days prior to the date of issue in which the advertisement is to be published. The journal is mailed on approximately the 10th day of the month of issue. Inquiries about advertising should be directed to: M. J. Mexico Associates, Inc., 155 South White Horse Pike, Berlin, NJ 08009 [Telephone: (609) 768-9360; FAX: (609) 753-0064].

Copyright and Permissions
Authors who wish to publish in Cell Growth & Differentiation must formally transfer copyright to the proprietor of the journal, the American Association for Cancer Research, Inc. It is understood by this transfer that the authors relinquish all exclusive rights of copyright ownership, including the rights of reproduction, derivation, distribution, sale, and display.

Authors who prepared their articles as part of their official duties as employees of the U.S. Federal Government are not required to transfer copyright to the American Association for Cancer Research, Inc., since these articles are considered to be in the public domain. In the case of articles supported by federal grants or contracts, copyright transfer to the American Association for Cancer Research, Inc., is required. The federal government may retain a nonexclusive license to publish or republish such material.

The Journal will routinely allow authors (or others with the permission of the authors) to include select parts of a copyrighted article in reviews, books, or subsequent papers, upon written request to the AACR Director of Publications. Requests to reproduce an article in its entirety will be considered on an individual basis and permission may be granted contingent upon payment of an appropriate copyright fee. All reproduction requests must include a brief description of intended use and a stamped, self-addressed envelope. Third parties should obtain the approval of the authors before corresponding with the AACR.

Those who wish to photocopy articles should contact the AACR Publications Department [Telephone: (215) 440-9300; FAX: (215) 440-9355].

No responsibility is accepted by the Editors, by the American Association for Cancer Research, Inc., or by Cadmus Journal Services for the opinions expressed by contributors or for the content of the advertisements.

 Cell Growth & Differentiation is abstracted and/or indexed in Chemical Abstracts, Index Medicus, MEDLINE, Cancer Lit, BIOSIS Previews, and Current Contents. This journal is printed on acid-free paper.

Cell Growth & Differentiation (ISSN 1044-9523) is published monthly for $55 (for members of the American Association for Cancer Research) or for $90 (individual nonmembers) and $180 (institutional nonmembers) per year by the American Association for Cancer Research, Inc. Second-class postage paid at Baltimore, MD and additional mailing offices. POSTMASTER: Send address changes to Cell Growth & Differentiation, P.O. Box 3000, Denville, NJ 07834.
FOR **IN SITU HYBRIDIZATION**

**NEW PROLIFERATION MARKER**

**Histone H3 mRNA probe**

- Measures proliferation in paraffin-embedded, formalin-fixed tissues or cell preparations.
- Long single-stranded, fluorescein-labelled DNA probe design for optimal mRNA hybridization and signal generation.
- Cytoplasmic signal allows double staining of nuclear markers.
- Compatible with DAKO’s ISH Detection System (K607) for rapid, sensitive, colorimetric detection.
- 5 hours total procedure time.

DAKO histone H3 mRNA probe. Product code: Y3301

**2-1/2 HOUR**

**ISH Detection System**

- For fluorescein labelled probes.
- Complete, stabilized, ready-to-use reagents.
- BCIP/NBT substrate/chromogen for high sensitivity.

DAKO *in situ* Hybridization Detection System for fluorescein-conjugated probes. Product code: K607

**Additional ISH-qualified products now available from DAKO Corporation:**

**HAPTN LABELLED PROBES:**
- HPV types 6, 11, 16, 18, 31, 33, 6/11, 16/18, 31/33
- Wide Spectrum screening HPV
- Epstein-Barr virus EBER, BHLF
- β-actin positive and negative controls for mRNA ISH

**ANCILLARY PRODUCTS:**
- proteolytic enzymes
- DAKO* Target Retrieval Solution
- buffers
- DAKO* Silanized Slides

FOR RESEARCH USE ONLY. Not for use in diagnostic procedures.

FOR ADDITIONAL INFORMATION CALL **DAKO CORPORATION: 800/235-5743**
