PLENARY SESSION
The Biological and Clinical Roles of Genetic Markers (Karen S. H. Antman)

SYMPOSIA
Genetic Basis for Tumor Cell Sensitivity to Radiation (John B. Little)
Recent Advances in Environmental Carcinogenesis (Kenneth Olden and Paul Kleihues)
Basic Science Approaches to Breast Cancer (Mina J. Bissell)
Programmed Cell Death (Stanley J. Korsmeyer)
Basic and Clinical Aspects of Prostate Cancer (Donald S. Coffey)
Tumor Suppressor Genes and Cell Cycle Control (Michael B. Kastan)
Retinoids and Cancer (Lorraine J. Gudas)
Solid Tumor Physiology and Therapeutic Approaches (Beverly A. Teicher)
Potential Applications of Advances in Cell and Molecular Biology to New Therapies for Lung Cancer (John D. Minna)
Hematological Malignancies: Biology and Therapy (Riccardo Dalla-Favera)
Hormonal Carcinogenesis: Epidemiological and Mechanistic Studies (Barbara S. Hulka and Joachim G. Liehr)
Cellular Signalling (Joseph Schlessinger)
Cell Adhesion in Invasion and Metastasis (David A. Cheresh)
New Approaches to Cancer Immunotherapy (Olivera J. Finn)
Genomic Imprinting and Its Role in Cancer (Andrew P. Feinberg)
AIDS-associated Malignancies (Alexandra M. Levine)
Topoisomerase I Inhibitors: Molecules to Medicine (Randall K. Johnson)
Integration of Cytokines and Radiation: Biological Basis and Preliminary Clinical Trials (Zvi Fuks)
Pharmacogenetics: Role of Drug Metabolism Polymorphisms in Cancer Chemotherapy (Frank J. Gonzalez)
Intermediate Endpoints in Cancer Prevention (Gary J. Kellogg)
Transcriptional Control of Cell Proliferation and Differentiation (Robert Eisenman)
Conducting Cancer Research Among Minority Populations in the United States (Jose Russo)
New Strategies for Immunological Intervention (Hans Schreiber and You Hui Zhang)
Mechanisms and Circumvention of Drug Resistance (Barton A. Kamen)
Nutrition and Cancer: Basic and Epidemiological Research (Walter C. Willett)
Novel Strategies in Chemical Prevention of Cancer (Paul Talalay)

MINORITY ISSUES SYMPOSIUM
Survival and Success in Cancer Research: Toward the Year 2000 (Sandra L. White)

WORKSHOPS
Confocal Microscopy and Quantitative Image Analysis (James P. Slattery)
Quantitative Genotyping and Phenotyping of Tumor Cells (Fredika M. Robertson and Joe W. Gray)

CONTROVERSIES
Bone Marrow Transplantation (Clara D. Bloomfield)
Is Multidrug Resistance an Important Factor in Therapeutic Outcome? (William T. Beck)
Dietary Fat and Cancer (Laurence N. Kolonel)

MEET-THE-EXPERT SUNRISE SESSIONS
To Be Announced

Further Information: AACR Office • Public Ledger Building • 620 Chestnut Street • Suite 816 • Philadelphia, PA 19106-3483
TELEPHONE (215) 440-9300 • FAX (215) 440-9313
Next Annual Meeting: March 19-22, 1995, Toronto, Ontario, Canada
Notice to Members of the American Association for Cancer Research
Officers for 1993–1994
President: Margaret L. Kripke, M. D. Anderson Cancer Center, Houston, TX 77030
President-Elect: Edward Bresnick, Dartmouth-Hitchcock Medical Center, Lebanon, NH 03756
Treasurer: Thomas J. King, Georgetown University Medical Center, Washington, DC 20007
Executive Director: Margaret Foti, AACR, Public Ledger Building, Suite 816, Philadelphia, PA 19106-3483

Annual Dues
The annual dues of active members of the American Association for Cancer Research are $150.00, $55.00 of which may be applied to a subscription to Cell Growth & Differentiation. Corresponding members of the Association will be charged an appropriate fee to offset second-class postage costs. Payment of dues and changes of address of members of the Association should be sent promptly to Margaret Foti, Executive Director, American Association for Cancer Research, Public Ledger Building, 620 Chestnut Street, Suite 816, Philadelphia, PA 19106-3483; Telephone: (215) 440-9300; FAX: (215) 440-9313.

Submission of Manuscripts
Cell Growth & Differentiation publishes significant, original research on the molecular biology of cancer. The journal’s scope encompasses a broad range of in vitro and in vivo studies pertaining to normal and abnormal cellular processes. Topics include oncogenes and tumor suppressor genes, gene expression and regulation, transcription factors, growth factors and their receptors, molecular mechanisms of tumor progression, signal transduction, cell cycle, differentiation, and development. All submissions undergo peer review. Papers may be sent directly to an appropriate member of the Editorial Board for review. See Instructions for Authors (page ii of this issue) for complete mailing addresses of Editorial Board members.

Back Issues and Single Copy Sales of the Journal
Copies of back stock of the journal may be ordered from Waverly Press, Inc. As long as supplies permit, single copies will be sold by this company at $12.50 per copy. Orders outside the U. S. add $1.50/copy to offset postage costs.

Advertisements
Advertisement insertion orders and copy must be received 60 days prior to the date of issue in which the advertisement is to be published. The journal is mailed on approximately the 10th day of the month of issue. Inquiries about advertising should be directed to: Elizabeth Mosko, Waverly, Inc., 428 E. Preston Street, Baltimore, MD 21202-3993. Telephone: (410) 528-4005.

Copyright and Copyright Clearance Center
Authors who wish to publish in Cell Growth & Differentiation must formally transfer copyright to the proprietor of the journal, the American Association for Cancer Research, Inc. It is understood by this transfer that the authors relinquish all exclusive rights of copyright ownership, including the rights of reproduction, derivation, distribution, sale, and display.

Authors who prepared their articles as part of their official duties as employees of the U.S. Federal Government are not required to transfer copyright to the American Association for Cancer Research, Inc., since these articles are considered to be in the public domain. In the case of articles supported by federal grants or contracts, copyright transfer to the American Association for Cancer Research, Inc., is required. The federal government may retain a nonexclusive license to publish or republish such material.

The Journal will routinely allow authors (or others with the permission of the authors) to include select parts of a copyrighted article in reviews, books, or subsequent papers, upon written request to the AACR Director of Publications. Requests to reproduce an article in its entirety will be considered on an individual basis and permission may be granted contingent upon payment of an appropriate copyright fee. All reproduction requests must include a brief description of intended use and a stamped, self-addressed envelope. Third parties should obtain the approval of the authors before corresponding with the AACR.

Copies of articles for which the American Association for Cancer Research, Inc. owns the copyright may be made for personal or internal use, provided that the copier pay the per-copy fee of $2.00 through the Copyright Clearance Center, Inc. This Center is a nonprofit organization through which individuals and institutions may reimburse a copyright owner for photocopying journal articles beyond what is defined as “fair use” in Sections 107 and 108 of the Copyright Revision Act of 1978.

Those who wish to photocopy articles may report the number of copies they have made, together with the fee code 1044-9523/94 $02.00, to: Copyright Clearance Center, Inc., 222 Rosewood Dr., Danvers, MA 01923. Remittances may be sent to the Center at the time of reporting or the Center will bill the user on a monthly basis. Deposit accounts and prepayment plans may also be arranged.

No responsibility is accepted by the Editors, by the American Association for Cancer Research, Inc., or by Cadmus Journal Services for the opinions expressed by contributors or for the content of the advertisements.

Cell Growth & Differentiation is abstracted and/or indexed in Chemical Abstracts, Index Medicus, MEDLINE, Cancer Lit, BIOSIS Previews, and Current Contents. This journal is printed on acid-free paper.

Cell Growth & Differentiation (ISSN 1044-9523) is published monthly for $55 (for members of the American Association for Cancer Research) or for $90 (individual nonmembers) and $180 (institutional nonmembers) per year by the American Association for Cancer Research, Inc. Second-class postage paid at Baltimore, MD and additional mailing offices. POSTMASTER: Send address changes to Cell Growth & Differentiation, c/o Waverly, Inc., 428 E. Preston Street, Baltimore, MD 21202-3993.
T-Cell Recovery Column Kits

- For separation of T-Cells in HUMAN, MOUSE and RAT
- For separations of HUMAN CD4 CELLS
  MOUSE CD4 CELLS

T-Cell Recovery Column Kits are for in vitro research use only. NOT FOR HUMAN USE OR THERAPEUTIC PROCEDURES.

Protein Kinase C and Mammary Cell Differentiation: Involvement of PKC-α in the Induction of β-Casein Expression  
Barbara M. Marte, Thomas Meyer, Silvia Stabel, Gesche J. R. Standke, Susan Jaken, Dorianno Fabbro, and Nancy E. Hynes

Cloning and Characterization of Human and Murine Homologs of the *Drosophila polo* Serine-threonine Kinase  

Activation of Early Growth Response 1 Gene Transcription and pp90^Erk1^ during Induction of Monocytic Differentiation  
S. Kharbanda, A. Saleem, M. Hirano, Y. Emoto, V. Sukhatme, J. Blenis, and D. Kufe

Colon Carcinoma Cells Switch Their Response to TGFβ1 with Tumor Progression  
Stephen Hsu, Fei Huang, Mohamed Hafez, Sidney Winawer, and Eileen Friedman

High Rate of Morphological Reversion in Tumor Cell Line H-19 Associated with Permanent Transcriptional Suppression of the LTR, v-src, LTR Provirus  
Jiří Hejnar, Jan Svoboda, Josef Geryk, Valerie J. Fincham, and Roman Hák

Transcription from the P2 Promoter of Human Proto-Oncogene *myc* Is Suppressed by Retinoic Acid through an Interaction between the E2F Element and Its Binding Proteins  
Seiichi Ishida, Koichi Shudo, Shinako Takada, and Katsuhiro Koike

Expression of Wild-type p53 during the Cell Cycle in Normal Human Mammary Epithelial Cells  
Jean M. Gudas, Mikio Oka, Francesca Dielle, Jane Trepel, and Kenneth H. Cowan

Developmental Expression of the RET Proto-Oncogene  
Virginia Avantaggiato, Nina A. Dathan, Michele Grieco, Nicole Fabien, Domenico Lazzaro, Alfredo Fusco, Antonio Simeone, and Massimo Santoro

Max Activity Is Affected by Phosphorylation at Two N-Terminal Sites  
Päivi J. Koskinen, Imre Västrik, Tomo P. Mäkelä, Robert N. Eisenman, and Kari Alitalo

Control of Sensitivity to Induction of Apoptosis in Myeloid Leukemic Cells by Differentiation and *bcl-2* Dependent and Independent Pathways  
Joseph Lotem and Leo Sachs

Tumor Promoting Phorbol Ester Transiently Down-Modulates the p53 Level and Blocks the Cell Cycle  
Jan Skouv, Peter Østrup Jensen, Jes Forchhammer, Jorgen K. Larsen, and Leif R. Lund

PDGF-Induced p21ras-Mediated Signaling Is Independent of PDGD Receptor Interaction with GAP or PI-3 Kinase  
Boudewijn M. Th. Burgering, Ellen Freed, Loesje van der Voorn, Frank McCormick, and Johannes L. Bos
