

Articles

- 567-576 **Localization of the Viral and Cellular Src Kinases to Perinuclear Vesicles in Fibroblasts** Tim Redmond, Barbara K. Brott, Richard Jove, and Michael J. Welsh
- 577-588 **Functional Analyses of Albumin Expression in a Series of Hepatocyte Cell Lines and in Primary Hepatocytes** Jian-ming Hu, Sally A. Camper, Shirley M. Tilghman, Thomas Miller, Ingo Georgoff, Rosa Serra, and Harriet C. Isom
- 589-596 **Down-Regulation of Cytokeratin 14 mRNA in Polyoma Virus Middle T-transformed Rat Liver Epithelial Cells** Isabelle Royal, Henriette Gourdeau, Richard Blouin, and Normand Marceau
- 597-608 **A Common Set of Nuclear Factors Bind to Promoter Elements Regulated by the Retinoblastoma Protein** Ava J. Udvardia, Kathleen T. Rogers, and Jonathan M. Horowitz
- 609-616 **Persistent Expression of the Tumor Suppressor Gene *DCC* Is Essential for Neuronal Differentiation** Kenneth G. Lawlor and Ramaswamy Narayanan
- 617-625 **Oncogenic Conversion Alters the Transcriptional Properties of *ets*** Christine Wasylyk and Bohdan Wasylyk
- 627-635 **Neuronal Differentiation Triggered by Blocking Cell Proliferation** Patrizia LoPresti, Wojciech Poluha, Dorota K. Poluha, Elizabeth Drinkwater, and Alonzo H. Ross
- 637-644 **Down-Regulation of Cell Cycle Control Genes by Ionizing Radiation** Rakesh Datta, Ralf Hass, Hisato Gunji, Ralph Weichselbaum, and Donald Kufe
- 645-654 **Expression of the Growth Factor-inducible Immediate Early Gene *cyr61* Correlates with Chondrogenesis during Mouse Embryonic Development** Timothy P. O'Brien and Lester F. Lau

Research Capsule

655–662

**Retinoids, Retinoid-responsive Genes,
Cell Differentiation, and Cancer**

Lorraine J. Gudas
